# UNEMPLOYMENT GUARANTEED FOR NON-CITIZENS

## PRIMARY ELECTIONS JUNE 7, 2022

**Action Alert: "The Educational Freedom Act" Petition  
Deadline is early April 2022**

Unemployment Guaranteed for Non-Citizens

Primary Elections June 7, 2022....What You Need to Know

### AB-2847 – Unemployment: Excluded Workers Pilot Program

Existing law prohibits payment of unemployment compensation benefits for services performed by a person who is not a citizen or national of the United States unless that person is an individual who was lawfully admitted for permanent residence at the time the services were performed, was lawfully present for purposes of performing the services, or was permanently residing in the United States under color of law at the time the services were performed, as specified.

**This bill would establish, until January 1, 2025, the Excluded Workers Pilot Program**, to be administered by the Labor and Workforce Development Agency, for the purpose of providing income assistance to excluded workers (illegal aliens) who are not eligible for the state or federal benefits administered by the Employment Development Department and who are unemployed. The bill would make individuals eligible to receive \$300 per week for each week of unemployment occurring between January 1, 2023, and December 31, 2023. The bill would appropriate \$690,000,000 from the General Fund to the agency for purposes of carrying out, implementing and administering the program. **The bill would require the agency, on or before 8/1/24, to submit a report to the Governor and specific committees that makes recommendations for establishing permanent unemployment insurance benefit program for "workers" excluded from the unemployment insurance system based on their immigration status.**

**Why January 1, 2023, because it will be after the November elections and this will not become a political issue? CALL or EMAIL your legislators now.**

For additional information of each Bill/Proposition go to <https://leginfo.legislature.ca.gov> and enter the Bill Number or keywords where designated. Find/contact your local legislatures at [www.legislature.ca.gov/](http://www.legislature.ca.gov/) To contact your U.S. Representatives, call the

Capitol Switchboard at (202) 224-3121

**Primary Election June 7, 2022 \* DO NOT Mail in Your Ballot \* Redistricting Confusion**

\*County Officials will start mailing ballots to registered voters on May 9, 2022.

\*Do Not Vote By Mail. Mailed ballots are picked up by USPS; sorted by USPS; delivered to the County Mailroom; sorted again by Clerks; processed by Clerks; and ballot signatures are verified by temporary staff.....then finally your ballot is opened to be fed into a machine.

\* Go to a polling site to insert your ballot into the machine yourself.

**WHAT  
YOU  
NEED TO  
KNOW**

\* Redistricting changed Camarillo into different Ventura County Board of Supervisors Districts. Part of Camarillo is now in District 2, which is currently Linda Parks' District. Linda Parks reached the end of her term. Two Republicans are running for District 2: Jeff Gorell and Tim McCarthy. A Republican win will change the balance of the County Board of Supervisors.

\*Redistricting also changed the Assembly District Camarillo is under, into 2 Assembly

Districts; District 38 (Steve Bennett, current State Assembly Member) and District 42 (Jacqui Irwin, current State Assembly Member). The following Republicans are running in the Primary Election: for District 38, Cole Brocato and for District 42, Lori Mills.

\*We have the opportunity to significantly increase the Republican stake hold in Congress. Current Democratic Congresswoman Julia Brownley must run to maintain her seat in the U.S. Congress 26th District. We have a strong Republican Candidate running who needs all of our support to win; Matt Jacobs. Sign up at Matt's website to help his campaign secure a position in the U.S. Congress: <https://mattjacobosforcongress.com>

\*To determine which District you are assigned to google County of Ventura Elections Division, then click on Voter Lookup, then click on Who are My Elected Officials; follow instructions.

\*Make sure you vote in the Primary Election.....every single Republican Vote will determine the Candidates that will be on the General Election Ballot in November.

## THE CALIFORNIA HOUSING SPECULATION ACT

AB 1771, also known as the California Housing Speculation Act, proposes to add an additional 25% tax on the portion of capital gain from the sale or exchange of residential properties within three years of an investor's purchase of the property, with the tax declining in annual increments afterwards. The Act applies to investors in California residential properties, including fix and flip investors. If passed, the Act would become law on January 1, 2023.

"The Act is founded on the notion that soaring prices for homes in California are driven by investor-purchasers of residential properties in California. There is no carve out or exemption for fix and flip professionals, who perform valuable services by rehabilitating sub-standard housing stock."

"We want to get to 1 million homes in the next 15 years or so", said Sean Dobson, CEO of Amherst, and he's adding 1,000 homes a month to his empire with the help of artificial intelligence.

Housing and food are basic necessities. Housing is a human right, and the main purpose of housing is for people to live in it.

Homeownership has been the basis to build wealth and transfer it to their children and grandchildren. A home with a backyard for their children to play and for family barbeques has made their lives pleasant. Owning a home can help pay for higher education. When it is paid off, a home can be a boon for retirement.

"There were at least 269,000 K-12 students in California experiencing homelessness at the end of the 2018-19 school year." (Los Angeles Times, October 1, 2020)

"The median family net worth of homeowners is more than \$230,000, according to the Fed, compared with \$5,000 for renters."

What was once mom and pop investors or local groups of business people who owned a few properties, now wealthy investors (whose families live in their own home or homes) are involved in purchasing single-family homes on a much greater scale for profit. This leads to sky-high rents and puts people on the streets in tents, or in cars or RVs.

We should not let foreigners and billionaires with cash, bid against our residents for single-family housing, and should stop flippers from doing the same. "Foreign US Home Sales Surge 49% to Record \$153 Billion," between April 2016 and March 2017. (F. McGuire, Newsmax Finance, 18 July 2017)

Investors bought \$49.9 billion worth of homes in the fourth quarter of 2021, up from \$35 billion a year earlier. As CoreLogic's recent analysis showed, investor purchases accounted for about a quarter (26%) of all home purchases in Q3 2021, up from 16% seen in 2019. Single-family homes made up about three-quarters (74.8%) of investor purchases in the fourth quarter.

Roofstock – "investors can buy stakes as low as 10% in single-family rental Houses, 'utilizing its scalable, data-driven platform to build robust single-family rental portfolios and generate passive income.'" (Matt Harris, partner at Bain Capital Ventures)

Invitation Homes, Inc. - in 2019, its home occupancy rate ticked up to 96.5%, and rents in 2021 increased 11%. Blackstone made about \$7 billion when it sold its stake in Invitation Homes last year. Chief executive, Stephen Schwarzman took home a record \$1.1 billion in 2021. In 2021, American Homes 4 Rent's rental payment increase was 14%.

The average monthly rental payment for a new lease was up 14% in December 2021.

*We are happy to report that the Paper Name Tags seem to be working at our meetings to making our guests feel welcomed. We ask that you continue the important work to reach out and help our guests know we are glad they have attended including wanting them to know we would enjoy them becoming members.*

*We want to extend our welcome to our newest member Chris Fields and ask members to add their welcome at our next meeting.*

## FREEDOM OF SPEECH

### DOUG BLOIS

Free speech, and the free flow of information, is an essential foundation of the United States of America. Our founding fathers knew this. George Washington, the general who won the Revolutionary War for us, and served as our first President, said 'Truth will ultimately prevail where there is pains taken to bring it to light.' John Adams stated 'Liberty cannot be preserved without a general knowledge among the people.' It is enshrined in the first amendment of our Constitution (Bill of Rights). 'Congress shall make no law respecting an establishment of religion, or prohibiting the free exercise thereof; or abridging the freedom of speech, or of the press, ...'

Unfortunately, in recent years, free speech in our country has come under attack. Politicians in our capitols have always had the temptation of increasing control over our lives, and decreasing our liberties. But now, with the advent of 'cancel culture', the dominant news outlets have decided to cancel the news stories that they deem not to their liking. If this trend is not stopped, it will lead to the collapse of our country.

Again, I go back to the words of our founders. Thomas Jefferson said 'If we are to guard against ignorance and remain free, it is the responsibility of every American to be informed.' I would add that it is also the obligation of the press to print all the news, not just the news that fits their narrative.

The American people are intelligent enough to decide for themselves what the truth is, and cast their vote accordingly.

The danger happens when the press decide what the truth is, and label everything else a conspiracy theory.

In the run up to the 2016 Presidential election and continuing afterwards, there was the 'Russian Collusion' narrative, claiming that President Donald Trump was colluding with the Russians. This was instigated by the previous administration, but fanned by the mainstream news. After years of investigation, and countless tax dollars spent, this narrative was proven to be false, but the news media still talks about it. Then just prior to the 2020 election, the mainstream

media refused to print the Hunter Biden laptop stories. We now know that those stories are true. If there had been full, fair and balanced reporting of the news, Americans would have been better informed, and the result of the 2020 election most likely would have been different. Polling has shown that between 15 & 20 percent of the people that voted for President Joe Biden would not have voted for him if they had known the Hunter Biden laptop stories.

So what is the answer? If we cannot depend on the mainstream media to tell

'the whole news, and nothing but the news,' then obviously we have to take the time to explore alternative news sources that are not beholden to a preconceived narrative. Once we have done that, we have to consider the content and source of all the available news, decide what the truth is, and make our choice at the ballot box accordingly. Or as another founder James Madison stated: 'a popular government without popular information, or the means of acquiring it, is but a prologue to a Farce or a Tragedy, or perhaps both.'
